

Reject the NAB's petition 04-160 having this kind of service is well worth the money I travel a lot and having this kind of information at my finger tips when I need it NOT when ever the ragular stations want to broadcast a traffic annoucement having to wait for it and be put to music or commentaries that really I don't care for

With XM I GET THE TRAFFIC I need when I need it

XM'S Satellite SERVICE IS GREAT IT'S OUT THERE AND IS HERE TO STAY
